Contents of *Agricultural Water Management*, Volume 75

VOLUME 75 ISSUE 1 **1 JULY 2005**

Surge flow irrigation with sediment-laden water in northwestern China
W.-Y. Wang, W. Luo and Z.-R. Wang (Xi'an, China) 1
Evaluation of the sap flow determined with a heat balance method to measure the transpiration of a sugarcane canopy
R. Chabot (Antony, France), S. Bouarfa (Montpellier, France), D. Zimmer (Marseille, France), C. Chaumont and S. Moreau (Antony, France) 10
Analysis of a LEACHN-based management technique in 'predictive mode'
B. Mahmood (Auckland, New Zealand) 25
Analysis on groundwater table drawdown by land use and the quest for sustainable water use in the Hebei Plain in China
Y. Xu, X. Mo, Y. Cai and X. Li (Beijing, PR China) 38
Methods for estimating irrigation needs of spring wheat in the middle Heihe basin, China
C. Zhao, Z. Nan and G. Cheng (Lanzhou, China) 54
Effect of plastic mulching on soil water use and spring wheat yield in arid region of northwest China
Z.-k. Xie, Y.-j. Wang and F.-m. Li (Lanzhou, China) 71

VOLUME 75 ISSUE 2 **15 JULY 2005**

Salinity effect on grain quality of two durum wheat varieties differing in salt tolerance
N. Katerji (Thivernal-Grignon, France), J.W. van Hoorn (Wageningen University, The Netherlands), C. Fares (Foggia, Italy), A. Hamdy, M. Mastrorilli (Bari, Italy) and T. Oweis (Aleppo, Syria) 85
An ecological optimality approach for predicting deep drainage from tree belts of alley farms in water-limited environments
T. Ellis, T. Hatton (Canberra, Australia) and I. Nuberg (Adelaide, Australia) 92
Above ground biomass and water use efficiency of crops at shallow water tables in a temperate climate
L. Mueller (Muencheberg, Germany), A. Behrendt, G. Schalitz (Paulinenaue, Germany) and U. Schindler (Muencheberg, Germany) 117

doi:10.1016/S0378-3774(05)00217-9

Evaluation of water-use in traditional irrigation. An application to the Lemos Valley irrigation district, northwest of Spain
X.X. Neira, C.J. Álvarez, T.S. Cuesta and J.J. Cancela (Lugo, Spain) 137
Regulated deficit irrigation during the kernel-filling period and optimal irrigation rates in almond
J. Girona, M. Mata and J. Marsal (Lleida, Spain) 152

VOLUME 75 ISSUE 3 **25 JULY 2005**

Phenology based irrigation scheduling and determination of crop coefficient of winter maize in rice fallow of eastern India
G. Kar and H.N. Verma (Bhubaneswar, India) 169
Automatic regulator for channel flow control on flooded rice
L.G.H. do Amaral (Viçosa, Brazil and Brazil), A.A. Righes, P. da S. e Souza Filho and R.D. Costa (Santa Maria, Brazil) 184
Decision support framework for assessment of non-point-source pollution of groundwater in large irrigation projects
V.M. Chowdary (Kharagpur, India), N.H. Rao (Hyderabad, India) and P.B.S. Sarma (New Delhi, India) 194
Evapotranspiration and seed yield of field grown soybean under deficit irrigation conditions
F. Karam, R. Masaad (Zahlé, Lebanon), T. Sfeir (Beirut, Lebanon), O. Mounzer (Murcia, Spain) and Y. Rouphael (Viterbo, Italy) 226
